The Association of Assassination Researchers

A Steering Committee was established last night, Oct 23, 1992, to help set up future meetings and conventions, and to assist and guide future research, and to prepare for the release of documents.

The next annual meeting will be this time next year in Washington, D.C., where our voices can be heard. There will be no further reporting from talks.

We will endeavor to have cheaper and more frequent meetings - semi-annual and quarterly, and regular regional meetings. In view of the massive amount of hoaxes, misrepresentation and fraud in our field, we will attempt to control and discipline such behavior, as do all professional organizations. Meetings will no longer be conducted along authoritarian lines or by commercial corporations feeding on us. We'll meet in barracks if necessary. I've had it, folks.

Many prominent researchers are boycotting this A.S.K. meeting. The sponsors are not being paid by South by Southwest Corp. Fregs credentials have been denied to John Judge, Bill Kelly and numerous others. I have been criminally assaulted by the managers, and repeatedly threatened with arrest. For two years I have been unable to speak or take questions on my Findings. Jim Lesar will not come here and many are offended.

Therefore, we are now a Committee of the Whole. Mark Zaid is temporary secretary. Get your names & addresses to us & Jerry Rose (3rd Decade

Harrison E. Livingstone
